SUMMARY

Software Engineer and IT Infrastructure professional with 7+ years of experience supporting enterprise environments, troubleshooting complex systems, and delivering reliable technology solutions. Recently completed a Professional Certificate in Software Engineering, with hands-on experience developing full-stack applications using React, Next.js, Node.js, TypeScript, and MySQL.

Currently supporting over 2,000 users at Barfoot & Thompson while collaborating with Infrastructure, Networking, Web, and API teams to investigate production issues, support business-critical applications, and improve operational processes. Experienced with cloud technologies, Docker, monitoring platforms, Linux, and enterprise IT systems.

Passionate about automation, cloud infrastructure, DevOps practices, and building reliable, scalable systems that improve developer and user experiences.

SKILLS

- **Languages:** JavaScript • TypeScript • SQL • Bash • PowerShell
- **Frontend:** React • Next.js • Tailwind CSS • Material UI
- **Backend:** Node.js • Express • REST APIs • Prisma • Sequelize
- **Databases:** MySQL • MongoDB • Supabase
- **Cloud & DevOps:** AWS (EC2, Elastic Beanstalk) • Docker • Git • GitHub • Linux • GitHub Actions (Learning) • CI/CD (learning)
- **Infrastructure & Enterprise Systems:** Google Workspace • Office 365 • Active Directory • Windows Server • Endpoint Management • Desktop Central • FortiClient • RealVNC • ExtremeCloud IQ
- **Monitoring & Operations:** LogicMonitor • Grafana • Incident Management • Application Support
- **Tools:** Jira • Confluence • Snipe-IT • Intercom • Testiny

EXPERIENCE

IT Service Desk Analyst

Barfoot & Thompson | Feb 2026 - Present

- Support over 2,000 staff across New Zealand, resolving complex technical incidents involving enterprise applications, infrastructure, networking, and cloud-based services.
- Investigate application issues in collaboration with Web, API, Infrastructure, Networking, and third-party vendors.
- Provision and manage user accounts, endpoint devices, permissions, and enterprise applications.
- Deploy, configure, and maintain Windows laptops while managing the full asset lifecycle using Desktop Central and Snipe-IT.
- Support VPN connectivity, Wi-Fi, authentication, business-critical systems, and property management platforms.
- Monitor and troubleshoot production issues using LogicMonitor and Grafana.
- Perform QA testing for the Barfoot mobile application using Testiny, documenting defects and validating functionality before release.
- Create and maintain technical documentation while contributing to continual improvements in support processes and service delivery.

Sessional Lecturer

Otago Polytechnic/Future Skills | Oct 2025 - Dec 2025

- Delivered lectures and practical sessions for the Platforms and Devices course, covering computer hardware, operating systems, and networking.
- Guided students through hands-on labs in PC assembly, BIOS setup, OS installation, and virtual machine configuration.
- Taught Linux, PowerShell, and Bash fundamentals, focusing on file systems, scripting, and troubleshooting.
- Provided one-on-one support and proactively attended extra sessions to develop teaching skills.

Teaching Assistant

Institute of Data | Apr - July 2025

- Provided one-on-one and group support to students during and after lessons.
 - Answered technical and conceptual questions to reinforce understanding of course material.
 - Guided students through lab exercises, helping troubleshoot coding issues in real time.
 - Assessed and marked lab work, offering constructive feedback to support learning and improvement.
 - Tracked student progress and collaborated with instructors to identify areas for additional support.
-

Service Desk Engineer

Foundation Partners Limited | May 2023 - Dec 2024

- Resolved Level 1 and 2 technical issues for medium and large businesses.
 - Diagnosed and troubleshoot network, server, and software issues using 3CX, TeamViewer, and HaloPSA.
 - Worked with senior engineers to implement IT solutions that improved system efficiency.
 - Maintained documentation for recurring issues, helping optimise troubleshooting workflows.
-

ICT Support Technician

Fusion Tech Limited | June 2019 - May 2023

- Managed Microsoft 365, Active Directory, endpoint deployments, and network infrastructure for small and medium-sized business clients.
 - Managed Office 365, Active Directory, and network security solutions, improving system uptime.
 - Configured and deployed hardware, software, and cloud-based services.
 - Provided onsite and remote troubleshooting.
-

ICT Support Technician

Darkwing Corporation Limited | June 2018 - June 2019

- Specialised in troubleshooting Mac devices, system recovery, and OS-related issues.
 - Installed, configured, and maintained network services and business software.
 - Utilise backup and cloning tools (Time Machine, ShadowProtect) to restore systems efficiently.
-

PROJECTS

Full-Stack E-Commerce Platform

Hosted Site: <https://ecommersewebsitetypescript.netlify.app/products> | **GitHub:** <https://github.com/nelg62/EcommerceWebsiteNextjsTypescript>

- **Tech Stack:** Next.js, React, Tailwind CSS, TypeScript, Prisma, MySQL
 - Developing a scalable e-commerce platform with product display, cart functionality, and checkout.
 - Designed and developed a responsive frontend using React, Next.js, Tailwind CSS, and TypeScript.
 - Currently implementing REST APIs, Prisma ORM, MySQL integration, authentication, and deployment workflows
-

Capstone Project - Full-Stack E-Commerce Application

Hosted Site: <https://capstoneprojectglenharding.netlify.app/> | **GitHub:** <https://github.com/nelg62/CapstoneProject>

- **Tech Stack:** React, Next.js, MUI, Axios, Express.js, Sequelize, MySQL, Netlify, Render, Supabase
 - Developed a full-stack e-commerce application using React, Express, Sequelize, and MySQL.
 - Implemented user authentication, product management, shopping cart functionality, and RESTful APIs.
 - Deployed frontend and backend using Netlify and Render while managing version control with GitHub.
-

Character Card Builder (Mini Project)

Hosted Site: <https://charactercardbuilderglenharding.netlify.app/> | **GitHub:** <https://github.com/nelg62/CharacterFormwithtypescriptandreact>

- **Tech Stack:** TypeScript, React,
 - Refactored an existing React application to TypeScript, improving maintainability, type safety, and overall application structure.
-

EDUCATION

Professional Certificate in Software Engineering

Institute of Data | 2024

- Full-Stack Development • React • Node.js • Express • MySQL • REST APIs

Level 5, 6, and 7 Diplomas in Information Technology

Techtorium NZ Institute of Information Technology | 2015 - 2017

- **Level 7 Diploma in Cloud Management (2017):** DNS, DHCP, Active Directory, SCCM
- **Level 6 Diploma in Networking and Security (2016):** Windows Server, Network Security
- **Level 5 Diploma in PC Support (2015):** Hardware, Software, and Networking Concepts
